

WELCOME

to ADOT's I-10 Phoenix-Tucson Bypass Study

PUBLIC LISTENING SESSION

This study is a preliminary assessment of the need and feasibility for a new transportation corridor that would provide an alternative to I-10.

PROJECT PURPOSE AND NEED

Purpose

- To provide an additional high-capacity transportation corridor to accommodate travel across southern and central Arizona.

Need

- Provide alternative route to I-10 to relieve traffic congestion on I-10 in the Phoenix and Tucson Metropolitan Areas
- Provide a shorter, faster route through southern and central Arizona that will attract through trucks and other traffic from I-10
- Provide a new route that offers an alternative path for I-10 traffic during construction, maintenance and incidents
- Provide a new transportation corridor to serve the expected rapid population growth and land development in the Sun Corridor
- Develop a corridor that is context sensitive to environmental and social elements
